SUBCOMMITTEE:  
CORRECTIONS

September 26, 2013

Mr. John Nixon  
Office of the State Budget  
Department of Management and Budget  
6th Floor Romney Building  
Lansing, MI 48090

Dear Director Nixon:

For your information, the attached transfer package has been approved by a majority of the members of both the House and Senate Appropriations Committees.

The transfers approved are from the Office of the State Budget letters dated September 10, 2013 and September 24, 2013, Legislative Transfer Requests 2013-9 and 2013-11, and a legislative transfer initiated by the Senate Appropriations Committee on September 25, 2013. The transfers are for the Departments of Agriculture and Rural Development, Attorney General, Community Health, Corrections, Environmental Quality, Human Services, Licensing and Regulatory Affairs, Military and Veterans Affairs, State Police, Technology, Management and Budget, and Treasury.

If you need further information, please do not hesitate to contact us.

Sincerely,

Joseph Haveman, Chair  
House Appropriations Committee

Roger Kahn, M.D. Chair  
Senate Appropriations Committee

Freshwater protection fund	4,737,500	4,963,756	(226,256)	450,000	450,000	450,000

This transfer is necessary to support grants awarded to local conservation districts that provide technical assistance to farmers participating in the voluntary Michigan Agriculture Environmental Assurance Program (MAEAP), statutorily recognized by 2011 PAs 1 and 2, which is designed to proactively assist agricultural producers of all sizes and all commodities to reduce their legal and environmental risks. In an effort to meet the goal set by the Governor of having 2,060 MAEAP verified farms at the end of CY 2013 (5,000 by CY 2015), the Environmental Stewardship Division increased the amount of grant funding, supported with the Freshwater Protection Fund (Fund), that was made available to Michigan Conservation Districts. The Fund, established by Section 8716 of the Natural Resources and Environmental Protection Act of 1994 (NREPA), is partially supported with annual fees collected from persons required to register pesticides and levied on each pesticide product (these fees are statutorily eliminated on 12/31/15).. There are sufficient carryforward monies within the Fund to support this request. This transfer is needed by September 30, 2013. A portion of MAEAP funding is appropriated for within the Environmental Stewardship line item in the FY 2012-13 and FY 2013-14 DARD budgets, SBO is working with DARD to allocate all MAEAP funding within the MAEAP line item for the FY 2014-15 DARD budget.

Funding source:						
Agricultural preservation fund	872,000	897,719	(25,719)	125,000	125,000	125,000

This transfer is necessary to accurately reflect the administrative costs required to operate this program following the enactment of 2011 PA 79 which resulted in a fourfold increase in requests for extensions for Development Rights Agreements under Part 361 of the Natural Resources and Environmental Protection Act of 1994 (NREPA). Consistent with the changes made by 2013 PA 59 (FY 2013-14 appropriation bill), the department requires additional authorization for the Farmland and Open Space Preservation line item from the Agricultural Preservation Fund (Fund) for the FY 2012-13 budget. The Fund, established by Section 36202 of the NREPA, is supported with the payback of property tax credits under 1974 PA 116 (now within Part 361 of the NREPA) and agricultural property recapture tax under 2000 PA 261. Authorization to expend these monies for administrative purposes is provided by 2013 PA 86, which increased the maximum amount expended from the Fund for DARD administrative costs of implementing Part 361 of the NREPA from \$900,000 to \$1.4 million annually. The FY 2013-14 DARD budget anticipated and appropriated for the changes made by 2013 PA 86. There are sufficient carryforward monies within the Fund to support this request for the FY 2012-13 DARD budget. This transfer is needed by September 30, 2013.

## LEGISLATIVE TRANSFER

This transfer will move funding from the Breeders' Awards line item to the Sire Stakes line item under the Thoroughbred Racing Program. Breeders' awards are paid to breeders of thoroughbred horses including the owner of the mother of the winning horse, and sire stakes are supplemental awards to the owner of the father of the winning horse at special stakes races comprised of only two- and three-year-old Michigan-sired thoroughbred horses. There are sufficient funds available to support this transfer.

## LEGISLATIVE TRANSFER

The purpose of this transfer is to provide GF/GP support for the Michigan Agricultural Environmental Assurance Program (MAEAP) to offset the utilization of Freshwater Protection Fund revenue for FY 2012-13. Sufficient funds are available for this transfer from the Unclassified Positions line item due to savings from vacant positions.

## LEGISLATIVE TRANSFER

The transfer will provide the necessary federal fund spending authority for the interagency agreements between Prosecuting Attorneys Coordinating Council (PACC) and Michigan State Police (MSP). The MSP receive a National Criminal History Improvement Project (NCHIP) federal grant to improve the electronic transfer of criminal history information. The PACC has been a sub recipient of NCHIP funds to do programming to facilitate the electronic exchange of information from the prosecutors' office to the MSP. The PACC receives the funds via reimbursement based on the number of hours of work performed by PACC on the project. While work performed has been below the annual allocation in the budget, the hours of work performed in FY 2012-13 will exceed the \$108,100 budget authorization due to the increased project work. While previous years fund balances have carried forward, unspent grant funds at the end of FY 2012-13 will lapse and cannot be carried forward to FY 2013-14.

Funding source:						
State general fund/general purpose	849,100	790,391	58,709	262,500	262,500	262,500

This transfer increases the general fund/general purpose authorization for the Community Residential and Support Services line item by \$262,500, enabling the Department of Community Health (DCH) to finance community residential leases under its responsibility. The FY 2012-13 budget anticipates the availability of \$700,000 in federal oil and gas royalties to support this line item. However, as of September 12, 2013, the remaining balance in oil and gas royalties was \$102,500.

According to the DCH, sufficient general fund/general purpose authorization is available for this transfer from the Behavioral Health Program Administration line item due to one-time FY 2012-13 vacancy/turnover savings for 4.0 FTE positions.

This transfer is needed by September 30, 2013.

Total federal revenues	10,616,900	6,896,497	3,720,403	213,700	213,700	213,700

This transfer increases the federal revenue authorization for the Housing and Support Services line item by \$213,700, enabling the DCH to support expenditures related to the following: Detroit Frequent Users Service Engagement (FUSE) project that provides leasing assistance to chronically homeless and severely mentally ill individuals who are frequent users of Detroit's homeless and hospital systems; and housing assistance and opportunities for individuals living with AIDS.

There is sufficient federal revenue authorization available for this transfer from the Federal and Other Special Projects line item due to the completion of the federal Medicaid Infrastructure grant, funds that were used to identify and address barriers to employment for individuals with disabilities. The FY 2013-14 enacted budget recognizes the completion of this federal grant.

This transfer is needed by September 30, 2013.

This transfer increases the private funds authorization for the Michigan Essential Health Provider line item, enabling the Department to expend available private revenues \$284,300 in excess of the current authorization. Increased funding is available from private employers to meet matching funds requirements for the federal State Loan Repayment Program grant. The funds support health education loan repayments on behalf of health care providers serving for two or more years in designated medically underserved and health professional shortage areas. Two similar transfers were made to the line item in FY 2011-12. The Executive indicates that this transfer is needed by September 30, 2013.

Private contingency fund authorization is available for this transfer.

This transfer increases the private funds authorization for the AIDS Prevention, Testing, and Care Programs line item, enabling the Department to expend available private revenues \$10,570,700 in excess of the current authorization. Private carryforward funding is available to cover projected expenditures of the HIV/AIDS Drug Assistance Program. Private funds are received from pharmaceutical manufacturers for rebates on AIDS and HIV medications used by the Drug Assistance Program which is payer of last resort for treatment medications for over 3,500 eligible uninsured or underinsured persons in Michigan. Rebate revenue continues to increase as new and brand name drug therapies are primarily used in treatment. A similar transfer was made to the line item in FY 2011-12. The Executive indicates that this transfer is needed by September 30, 2013.

Private contingency fund authorization is available for this transfer.

This transfer increases the federal funds authorization for the Immunization Local Agreements line item, enabling the Department to expend available federal revenues \$500,000 in excess of the current authorization. Increased funding is available from a \$1.2 million FY 2011-12 federal grant for capacity building for immunization programs, including enhancement and implementation of a comprehensive vaccine management module in the Michigan Care Improvement Immunization Registry (MCIR), and assessment of local public health billing capacities. A similar transfer was made to the line item earlier in the fiscal year. The FY 2013-14 enacted budget includes a \$1.1 million increase of federal funds to this line item for similar immunization program capacity building projects. The Executive indicates that this transfer is needed by September 30, 2013.

Federal contingency fund authorization is available for this transfer.

This transfer covers projected expenditures within the Behavioral Health, Children's Special Health Care Services, and Medical Services units. Federal contingency fund authorization is available. The Children's Special health Care Services (CSHCS) Medical Care and Treatment line needs more federal and less GF/GP based on the projected case mix and CSHCS Nonemergency Medical Transportation, Physician Services, and Pharmaceutical Services costs are lower than anticipated. Note that in the FY 2013-14 budget, over \$1 million in CSHCS Nonemergency Medical Transportation authorization was moved to the Medical Services section due to Title V/XIX Duals transition to managed care. Other transfers reflect year end needs for Home Health, Medicare Premium Payments, MICHild program, Medicaid Adult Benefits Waiver and the Federal Medicare Pharmaceutical Program. This transfer is needed by September 30, 2013.

\*Year-to-date expenditures, encumbrances, and balances by revenue source are estimates.

This transfer will provide funding to cover higher than anticipated prison food services costs due to delays in finalizing the food services contract. Also, the transfer will provide funding for a work project for one-time costs related to the food service contract implementation. Funding is available from the Clinical Complexes and Marquette Branch Prison line items due to vacancies and efficiencies. Examples of health care efficiencies include increased utilization of Medicaid reimbursement whenever possible, reduced dependency on off-site care, and revisions to the pharmaceutical formulary. Completion of this transfer is requested by September 28, 2013, to allow vendor payments to be processed.

This transfer requests \$2.5 million in additional local spending authority to recognize county chargeback revenues in excess of the May caseload consensus estimates. While total foster care caseloads are not higher than May caseload consensus estimates, more costs of care are eligible for county funding as state wards who are not Title IV-E eligible.

This transfer requests general fund/general purpose and federal authorization from the foster care payments line item to the guardianship assistance program line item. Based on the department's caseload projections and year-to-date program activity, total general fund/general purpose and federal expenditures for the guardianship assistance program are expected to exceed current appropriations. Sufficient authorization is available in the foster care payments line item due to lower than anticipated caseload costs.

This transfer requests \$5.8 million in general fund/general purpose and federal authorization for the adoption support services line item to recognize higher than anticipated adoption finalizations in the current year. Total finalizations are projected at 2,150 for the year at a cost of \$12,300 for each finalization. Additional post-adoption services and administrative costs are also supported through the line item. There is sufficient TANF funding authorization available in the child protection and permanency line item based on mid-year program reductions that were part of DHS's May reduction plan to address budgetary shortfalls. There is sufficient federal and general fund/general purpose authorization available in the payroll taxes and fringe benefits line item as hiring has been limited to critical position within DHS.

Federal grant award pursuant to the Affordable Care and Patient Protection Act (ACA) intended to establish a nationwide program to identify efficient, effective, and economical procedures for long term care facilities and providers to conduct background checks on a statewide basis on all prospective direct patient access employees. One-time grant was awarded to Michigan which will enable the extension of the Criminal Background Check Program for personal care workers and agencies who have regular direct access to patients and/or their medical records or provide direct services to patients. The pilot program supported through this grant provides for the creation of a national abuser list from state nurse aide registries, upgrades and standardizes Michigan State Police communications protocols for receipt of FBI background check materials, and supports an advisory committee comprised of long term care providers and long term care recipient advocates to oversee program implementation. A corresponding work project designation will be submitted at a later date as part of the year-end closing process to facilitate expenditure of the grant.

The federal government supports the administrative expenses of the Unemployment Insurance Agency (UIA) through formula grants based on the Insured Unemployment Rate within the state. Due to the decline in the state's Insured Unemployment Rate during 2012, the federal government reduced the amount of these grants (approximately \$37.2 million annually) and, as a result, UIA employees were laid-off in 2012 (approximately 402.0 FTEs). This transfer of spending authorization is for the UIA to maintain operations in FY 2012-13 in response to decreases in federal program support. Sufficient monies within the Penalty and Interest Account of the Contingent Fund are available to support the transfer on a one-time basis. Staffing reductions, information technology improvements (e.g. the benefit application of the UIA Integrated System Project which goes on-line on Oct. 1, 2013), and other administrative efficiencies have been implemented to address the needs of the program going forward. However, LARA may require a transfer in FY 2013-14 dependent on the level of federal grants received. This transfer is needed by September 30, 2013 in order to close the books for FY 2012-13.

This transfer provides additional authorization to align available federal funding with year-end Title XIX Medicaid expenditures by the Bureau of Health Systems (BHS). The U.S. Department of Health and Human Services fully reimburses the BHS for expenditures incurred under the Survey and Certification program which determines that providers and suppliers of health care services are in compliance with Medicaid regulatory health and safety standards and conditions of participation. This transfer would provide GF/GP spending authority to the Bureau of Fire Services (BFS) which would offset reduced revenues generated by Fire Service Fees resulting from a statewide decrease in the construction of new hospitals and school facilities. Fire Service Fees are established in Section 302 of LARA boilerplate, pursuant to Section 2c of 1941 PA 207, and are collected from schools and hospitals for BFS review of construction plans and inspection of construction sites. Since FY 2008-09, the BFS has expended more from Fire Service Fees than is generated via construction inspection and plan review fees; exhausting fund reserves in FY 2011-12. The FY 2012-13 Executive Budget Recommendation included an increase of Fire Service Fees by an amount sufficient to generate an estimated \$585,000 annually in additional revenue, the Legislature did not concur and the fees remained at their current level, however the Legislature did increase the GF/GP appropriation for the BFS by \$585,000. This amount has turned out to be insufficient to cover BFS costs of statutory inspections of school and hospitals during FY 2012-13. While revenue generated by plan review and construction inspection fees has declined during FY 2012-13, the number of annual fire safety inspections of schools and hospitals has remained relatively constant. Sufficient excess GF/GP authorization for the Worker's Compensation Administration line item is available, due to lower-than-anticipated database rewrite costs, to implement this transfer. This transfer is needed by September 30, 2013.

This request increases spending authorization for the Headquarters and Armories program line by \$1.5 million from funds received through the Department of Defense (National Guard Bureau) related to three adjustments. The first adjustment reflects the availability of federal funding to cover 50% of the costs of utilities and related services (snow removal, trash removal, etc.) at the state's armories. Previously, these costs were borne entirely by state General Fund dollars. The additional federal funds for these costs total about \$1.1 million. The second adjustment provides additional spending authorization for funding received through the National Guard Bureau for \$220,435 in electronic security upgrades (video surveillance, access controls, etc.) to the Combined Support Maintenance Shop (CSMS) located in north Lansing. An adjustment is also made to allocate a portion of OPEB costs to National Guard Bureau funds within this program line.

The request also increases spending authorization in the Military Training Sites and Support Facilities program line by \$2.1 million from funds received through the DOD-National Guard Bureau related to several upgrades and activities to Camp Grayling, including the fire protection agreement with the City of Grayling (\$450,000), fencing along the range (\$70,000), one-time costs for fire protection officers (\$107,675), and gravel used for various purposes at the training site (\$375,000). An adjustment is also made to allocate a portion of OPEB costs to National Guard Bureau funds within this program line.

This transfer increases the spending authorization for the D.J. Jacobetti Veterans' Home (DJJVH) in Marquette for revenue received from the U.S. Department of Veterans Affairs (State Veterans' Home Per Diem Program/CFDA 64.015) due to an increase in the number of resident members at the home with a VA disability rating of 70-100%.

Generally speaking, the VA provides a basic per diem rate for residents in nursing care settings at state veterans' homes. This amount is \$97.07 per day for FY 2012-13. Beginning with the enactment of the federal Veterans Benefits, Health Care, and Information Technology Act of 2006 (P.L. 109-461), the VA has provided a higher per diem rate for residents with a VA disability rating of 70-100%. This amount varies among state veterans homes based on the prevailing Medicare rate or the cost of care provided by the home, as agreed to by the home and the VA. For DJJVH, the FY 2012-13 per diem rate for residents with a 70-100% disability rate calculated by the VA using the prevailing Medicare rate is \$344.79. The amount paid by the VA for these residents is intended to represent the full costs of care for these resident members, so they do not pay any additional assessments to the home for their care.

This transfer will provide the necessary financial resources for the purchase of voice over internet protocol (VOIP) phone equipment for enhanced 911 (E-911) calls and emergency communications/dispatch consoles for the Michigan State Police (MSP) regional dispatch centers in Negaunee and Gaylord. (E-911 automatically associates a physical address with the calling party's telephone number, and routes the call to the most appropriate dispatch center.) The new phone equipment is intended to improve the capacity and reliability of the phone system, replacing equipment that has reached the end of its lifecycle. The dispatch consoles are being replaced as the existing consoles have also reached the end of their lifecycle and are no longer supported by the manufacturer. The phone equipment totals \$346,021, while the radio consoles total \$988,853.

The transfer increases the spending authorization from the Emergency Telephone Fund – Dispatch Operations (Treasury interdepartmental grant) to support these added costs, with this additional authorization supported by the accumulated revenue carried forward from prior fiscal years. The department receives 1.88% of the revenue generated by the \$0.19 State 911 charge per wireline and wireless phone lines under the Emergency 911 Service Enabling Act (1986 PA 32) as partial funding for the operation of its regional dispatch centers. The transfer increases the spending authority in the Management Services program line within the Support Services line item.

When the Bureau of Labor Market Information and Strategies (LMI) was transferred from the Department of Licensing and Regulatory Affairs (LARA) to DTMB in FY 2010-11, not all of the federal funds were transferred from LARA, including rent for Cadillac Place. LARA funded these costs for FY 2011-12 but does not have the funds for FY 2012-13 or FY 2013-14. Amounts of federal funds are tied to the Detroit CPI and OPEB costs are a significant burden for LMI that the feds will not pay for. DTMB originally proposed reducing costs for LMI, but it is unclear whether the cost reductions to the LMI would take the state out of compliance with federal law/funding. The Executive Office values LMI and thus proposed, and the Legislature approved, GF/GP funding for FY 2013-14 to offset reduced federal funds and support OPEB costs. This transfer supports these costs for FY 2012-13 with excess GF/GP authorization within the DTMB IT Services and Projects line item.

This transfer is an adjustment to offset expenditures related to unfunded personnel costs. During FY 2009-10 and FY 2010-11 the state incentivized retirement (i.e. "early out"), under which DTMB was authorized to hire one FTE for every two who were incentivized to retire. Two FTEs left the Office of Children's Ombudsman (OCO) without being incentivized and two new FTEs were hired to replace the two that left. It was mistakenly thought that the two FTEs that left the OCO were incentivized and as a result funds to support the salary of one of the new FTEs hired was not authorized. In FY 2011-12, DTMB was able to support this salary since there were vacancies in the OCO. There were no such vacancies in the OCO during FY 2012-13, however due to high turnover for accounting positions supported by the DTMB Administrative Services line item, funding is available for the otherwise unfunded OCO position.

This transfer moves General Fund spending authority from the Administration and Job Creation Services line items to cover an additional \$63,200 needed in the employee lump-sum payments line-item. The benefit costs associated with the employee lump-sum payments were not part of the original FY 2012-13 calculations for funding the employee lump-sum payments and were not included in the employee lump-sum payment line item. It is now requested that the benefit costs associated with the employee lump-sum payments be included in the lump-sum line item. The transfer of \$63,200 from the Administration and Job Creation Services line items will allow required benefit costs associated with the employee lump-sum payments to be funded.
